Your old 1987 Yamaha ProV 150 outboard certainly stands out from the crowd because there aren't many motors of that vintage running any longer. It's a shame because the ProV 150 is a robust and durable machine that will last for decades if it's well maintained and cared for. And yours is a perfect example of how the Yamaha ProV 150 can stand ...

Re: 1987 Pro V 150 Yamaha There is a float valve setting required. After over forty years of dealing with outboard carbs, I have still not been trained well enough to look at a carb and determine the inner passages are clean. Many people seem to think if the bowl is clean that the carb is fine. My experience says this isn't so.
