Ottley extended his sincere condolences to the family and friends of the victim who passed away. He wished the family strength during this time.

The Daily Herald - St. Maarten's 48th COVID death

Heat islands contribute to higher daytime temperatures, reduced nighttime cooling, and higher air-pollution levels. These, in turn, contribute to heat-related deaths and heat-related illnesses such as general discomfort, respiratory difficulties, heat cramps, heat exhaustion, and non-fatal heat stroke.
