in the sociology of religion is not well placed to challenge this bias. Even in disciplines like anthropology that have stronger defences against positivism, and have done most to keep the study of religious emotion alive, a focus on meaning systems and socio-cognitive structures has led to some neglect of emotional, bodily, and relational factors.

It argues that religious emotions are, first and foremost, those that arise in the context of religious emotional regimes. It then goes on to address the question whether emotion in such contexts has distinctive characteristics. How, if at all, does religious emotion differ from, say, emotion in the context of families, or politics, or sports, or art?

Religious Emotion - Oxford Scholarship

A Sociology of Religious Emotion is exactly the kind of specialist academic book that is usually overlooked by the celebrity combatants in the secular commentariat. If the book's arguments and its proposals for research are heeded, it might ground the wrangles about the proper place of religion. (Bernice Martin, Times Literary Supplement)

A Sociology of Religious Emotion | Request PDF

The study of emotion has a long history in the West, and almost from its beginning that study has been wrapped in religious phrasings of questions about meaning, contingency, ultimacy, and intention. It also has been to a certain extent characterized by attempts to understand whether and how cognition and emotion are related one to the other.

A Sociology of Religious Emotion eBook por Ole Riis ...

Today, emotions are often dismissed, or relegated to the private domain, as if they are simply peripheral, trivial aspects of the real business of politics, law-making, and public debate. Yet emotions scholars have demonstrated how emotions are inevitably politicised, and shape social life – for example by creating and aligning communities ...
