Cockatiels are another type of small bird that can make great pets. I was never a big fan of pet birds (due to being bit by my grandmother's parakeet as a kid). But a friend's cockatiel changed my mind. He's sweet, funny to listen to and watch, and extremely social. They're also simply gorgeous animals.

Martin Harvey/Getty Images. The African leopard (*Panthera pardus*) is the most elusive of the Big Five animals. Naturally shy and exclusively nocturnal, leopards spend the daylight hours hidden from view. They are excellent climbers, using trees to scan for prey and to store fresh kills away from scavengers like lions and hyena.
