Rational choice theory has proposed that there are two outcomes of two choices regarding human action. Firstly, the feasible region will be chosen within all the possible and related action. Second, after the preferred option has been chosen, the feasible region that has been selected was picked based on restriction of financial, legal, social, physical or emotional restrictions that the agent ...

INTRODUCTION. The theory of disruptive innovation 1 presents some intriguing inconsistencies. The original concept has gained widespread currency among practitioners, and the term disruption has entered the prevailing business lexicon (Christensen et al., 2001).Meanwhile, however, the theory’s core concepts remain widely misunderstood (Christensen, 2006; Raynor, 2011a).

The reference clearly applies to managers, thus ruling out self-management, not to mention the management of money or other non-human resources. We need to rid ourselves of the concept and practice of industrial-age management, but not managers. As organizations evolve to meet new demands, management must be re-invented and re-defined accordingly.
