Bates Physical Exam 11th Edition

In partnership with the University of Toledo's Center for Creative Instruction, McGraw Hill launched the first-of-its-kind virtual dissection tool in 1997: Anatomy & Physiology Revealed® (APR). APR utilizes cadaver photography to provide students with a realistic experience and the ability to practice and understand dissection 24/7—without the physical resources of a cadaver.

An abdominal examination is a portion of the physical examination which a physician or nurse uses to clinically observe the abdomen of a patient for signs of disease. The physical examination typically occurs after a thorough medical history is taken, that is, after the physician asks the patient the course of their symptoms. The abdominal examination is conventionally split into four ...
