Bernina 1010 Sewing Machine reviews and information

If you have a Bernina 780 and it won't turn on, just turn the machine off again and wait for about 3 hours. This should reset the electronic parts inside. If you have a Bernina 880 the cause for not turning on may be the battery inside. For the Bernina 440 it may be a bad power board that keeps your sewing machine from turning on.
