It's a big long talk about the opportunities Big Data offers and its implications on the enterprise budget. It's a big talk. As the authors suggest, Big Data Imperatives can be broadly divided into three parts: Part 1, chapters one to three, is a speech about the traditional approaches to data management and their failure to handle Big Data.

Enterprise vendors HP and IBM have very mature solutions that they are investing in as part of a larger big data investment. Attivio, Coveo Solutions, and Sinequa are pure-play search vendors focused on pushing beyond plain old search to search applications. And Google has packaged up its experience and acumen into an appliance.
