5. Barriers to BIM adoption. Elmualim and Gilder (2014) examined the hindrances to adoption of BIM in the USA, Canada, the UK, Ghana, South Africa, China, India and Australia. Their findings showed that the main barriers are deficiency of capital, BIM benefits not outweighing the implementation costs, unwillingness to start new workflows and BIM being too risky from a liability perspective.

1. Introduction. Property valuation, also known as real estate appraisal, plays a fundamental role in a nation's economy and financial stability. According to Taffese [], financial and economic decisions are based on the accuracy of property valuation results. For example, the housing market bubbles can cause serious financial risks such as the subprime mortgage crisis in the Great Recession 2008.

A compressor is a mechanical device that increases the pressure of a gas by reducing its volume. An air compressor is a specific type of gas compressor.. Compressors are similar to pumps: both increase the pressure on a fluid and both can transport the fluid through a pipe. As gases are compressible, the compressor also reduces the volume of a gas. Liquids are relatively incompressible; while ...
