Gay men are more likely to experience body image problems and eating disorders, such as anorexia and bulimia nervosa, than are their straight counterparts. One potential explanation is that, as a result of growing up with images of slender and effeminate gay men or men with muscular bodies, some gay and bisexual men worry excessively about their weight.

A biblical perspective on being Christian and gay. We experience same-sex attraction and yet are committed to what the Bible clearly says, and what the church has always taught, about marriage and sex. We do not identify as gay Christians, preferring to use the term "same-sex attracted" (find out why).. With friends, we've set up this website to articulate a perspective that is not often ...

2. Out-of-place Memories. There are many recorded instances of young children who have out-of-place memories that later prove to be oddly accurate in detail. While out-of-place memories could be due to simple fantasies, misunderstandings or an incongruity in the ability to remember, there is mounting evidence that suggests out-of-place memories could reveal connections to past lives.
