3. Use a Fan. A fan can help circulate warm air into your freezer. However, this method works best when the air in your home is warm enough to make a real difference. This works especially well for anyone that has a deep freezer in their garage.. Simply set up a fan up outside of the freezer with its door propped open.

This item replaced an 11 year old Bosch fridge/freezer. We have had it a month now so can offer a rounded view. The external and internal design and layout is both pleasing and very functional. The meat/ fish and fruit/ veg drawers work wonderfully at preserving the quality of food. The freezer isn't huge but we find it ample. A first-class ...
