True to its title, the theme of this book is genetic analysis. This theme emphasizes our belief that the best way to understand genetics is by learning how genetic inference is made. On almost every page, we recreate the landmark experiments in genetics and have the students analyze the data and draw conclusions as if they had done the research themselves.

Character creation (also character generation or character design) is the process of defining a game character or other character. Typically, a character's individual strengths and weaknesses are represented by a set of statistics. Games with a largely fictional setting may include traits such as race and class. Games with a more contemporary or narrower setting may limit customization to ...
