### Cincinnati Dial Type Milling Machine

Late-model Dial Type milling machines Before the introduction of the heavily revised versions (with separate column and knee dials) the sizes 2, 3, 4 were fitted with electrical push-button control of spindle start, stop and speed selection - and so removed the need for the traditional clutch lever or starting handle as Cincinnati termed it. The push buttons were arranged along the front edge of the saddle and duplicated on the left-hand side of the column - with a further set of controls on ...

In the decades bridging the 19 th and 20 th centuries technical developments in machine tools were rapid and continuous and, at the 1900 Paris World fair, Cincinnati won a gold medal for their positive, all-g geared milling machine table feed-change mechanism. 1907 saw the first of the High Power machines (a branding used throughout the 20 th century) - with an improved spindle drive, new feed mechanisms and logical, directional table-feed controls. This miller was also one of the first ...
