Color Mixing Recipes For Watercolor

Eventually, I started to get interested in color theory and watercolor mixing recipes. I did experiments, and I painted color charts to test the mixing range of my palette. And little by little this helped me develop a better understanding of how to use my paint.

The Essential Guide to Watercolor Mixing

Now to create a toned down color, do the opposite and combine colors that "don't want" to mix the same color. For example, mixing a warm yellow with a warm blue creates a muddy-looking green because both colors have a Red undertone. Remember Tip#3: a mixture with all three primary colors present tends to create a neutral color.

Now jump over two fences. Mix color #6 with color #3. You are still mixing blue and reds together, but it's going to look like mud because you mixed blue/green/red/yellow - four pigments out of two tubes. Now, you can do the same for a nice green and mix color #5 and #6 together. Mix #6 & #4 and you are going to get a dullish green.
