### Cooperative Learning Heterogeneous Vs Homogeneous

Cooperative learning is an educational approach which aims to organize classroom activities into academic and social learning experiences. . There is much more to cooperative learning than merely arranging students into groups, and it has been described as "structuring positive interdependence."

### Cooperative learning - Wikipedia

Cooperative learning is defined as students working together to "attain group goals that cannot be obtained by working alone or competitively" (Johnson, Johnson, & Holubec, 1986). The main purpose of cooperative learning is to actively involve students in the learning process; a level of student empowerment which is not possible in a lecture format.
