Disclaimer: The information in this post is intended to be a general guide to writing a behavior plan. Behavior plans, like FBA's, must be an individualized, needs-specific process. As a parent or professional, please avoid "paint -by -number" guides to writing behavior plans. Like most professionals, I do follow somewhat of a template when I create behavior plans.

Evidence-based observation techniques 3. Application and use of the student growth percentile model and the value-added growth model as defined in section 30-2. When a CBM score is at or below the 25th national percentile, a goal setting icon () is activated next to the CBM score(s) in question (see Goal column in Figure 1). 6% Speech and ...

Aimsweb percentile chart 2019

An FBA is intended to determine the function (or the reason) for a behavior, and then create an intervention based on that function. A Functional Analysis (FA) involves manipulating the environment to understand the behavior, while a Functional Behavior Assessment involves things like observation, interview, and collecting ABC data.
