Propulsion. The best source of propulsion information and software is the site by Professor Jack Mattingly. He is a co-author of the AIAA Aircraft Engine Design book, and the software that goes with it. Various codes are available from him. Propulsion codes, including ONX. Note that OFFX is apparently included in the AEDSys code.

Desertification is a type of land degradation in drylands in which biological productivity is lost due to natural processes or induced by human activities whereby fertile areas become increasingly arid. It is the spread of arid areas caused by a variety of factors, such as climate change (particularly the current global warming) and overexploitation of soil as a result of human activity.
