Elementary algebra encompasses some of the basic concepts of algebra, one of the main branches of mathematics. It is typically taught to secondary school students and builds on their understanding of arithmetic. Whereas arithmetic deals with specified numbers, algebra introduces quantities without fixed values, known as variables. This use of variables entails use of algebraic notation and an ...

His solution was to take the title of emir, meaning commander, and rule through a Chagatayid puppet khan acting as a figurehead. The emir also married into the family of Genghis Khan. While the law of descent was not intended to work this way, Timur changed it to accommodate his children, who would be able to claim Genghis-Khanid legitimacy.
