The Criteria for Evaluating Treatment Guidelines should be regarded as guidelines, which means that it is essentially aspirational in intent. It is intended to facilitate and assist the evaluation of treatment guidelines but is not intended to be mandatory, exhaustive, or definitive and may not be applicable to every situation.

Criteria for evaluating treatment guidelines

"Clinical practice guidelines are systematically developed statements to assist practitioner and patient decisions about appropriate health care for specific clinical circumstances."(Institute of Medicine, 1990) Issued by third-party organizations, and not NCCIH, these guidelines define the role of specific diagnostic and treatment modalities in the diagnosis and management of patients.

Clinical Practice Guidelines | NCCIH

The Evaluation: Guidelines are organized in a number of easy-to-use sections that can be used in sequence or as individual pieces and are intended to be a living and continuously evolving document to support evaluation in UNDP.
