Dejan Todorović, Laboratory of Experimental Psychology, Department of Psychology, University of Belgrade, Serbia. E-mail: dtodorov@f.bg.ac.rs (the address for correspondence). Context effects in visual perception and their explanations DEJAN TODOROVIĆ The context of a visual object is constituted by stimuli in its surround.

Context effects in visual perception and their explanations
A context effect is an aspect of cognitive psychology that describes the influence of environmental factors on one's perception of a stimulus. The impact of context effects is considered to be part of top-down design.The concept is supported by the theoretical approach to perception known as constructive perception.Context effects can impact our daily lives in many ways such as word ...
