Facilitators of alignment networks also help members to spot opportunities they wouldn't otherwise be attuned to. The facilitator of a co-labor network may more frequently go back and forth between the big-picture and day-to-day levels, focusing both on the joint work product and on what goes into developing it.

Essentially, the service provider and the customer mutually agree on specific outcomes that are measurable and attainable, and designed to ensure customer success. This service dynamic is therefore a win-win - customers get the outcomes they want, and service providers know exactly what is expected of them.
