Climate change includes both global warming driven by human-induced emissions of greenhouse gases and the resulting large-scale shifts in weather patterns. Though there have been previous periods of climatic change, since the mid-20th century humans have had an unprecedented impact on Earth's climate system and caused change on a global scale.. The largest driver of warming is the emission of ...

The National Defense Strategy and the Indo-Pacific Strategy Report pointed in the right direction to arrest and reverse these trends. Nevertheless, without requisite prioritization, forward-looking ideas, and consistent funding, subsequent shifts could end up being too little, too late. In short, the United States needs a new American way of war.
