Framing in Discourse / Edition 1 by Deborah Tannen ...

Framing is currently a principal concern within the field of discourse analysis. The `frame' of a given speech-act is its psychological setting. Both the speaker and the hearer have certain expectations based on their perceptions of the frame, and this affects their choice of words and their understanding of what is said.

...

Framing in Discourse is a collection of articles that use Goffman's ideas about frames in explicating a variety of linguistic interactions. The first two chapters, Tannen's "What's in a Frame?" and Tannen and Cynthia Walter's "Interactive Frames and Knowledge Schemas in Interaction," are reprinted, the former from a 1979 book and the latter from a sociology journal.
