Summary Emitting β radiation with a half-life of 5730 years, Carbon 14 follows the cycle of the stable element C, one of the components of the living materials, in which it is diluted. Carbon-14 is indeed around 10-12 times less abundant than stable carbon. The main source of exposure is due to naturally occurring ^{14}C (cosmogenic origin).. With regard to the impact of chronic releases, the ...

polarization and stress, energy harvesters can be categorized into two main operation modes: d 31 and d 33. As illustrated in Figure 2, in the d 31 mode, the polarization direction “3,” i.e., the electric field, is perpendicular to the direction of the applied stress “1.” This is the most commonly used operation mode, and widely exists in bending-beam ...
