Plant, Grow, and Harvest ...

There are different ways to plant your strawberries: First, there is a matted row system. In this system, the plants should be set about 18 to 30 inches (46-76 cm.) apart and rows should be about 3 feet (.91 m.) apart. This allows the daughters to roam throughout the garden area set aside for strawberries.

Day Neutral Varieties: Day neutral strawberries will continuously produce fruit throughout the season until the first frost, so their growing season is long. These are insensitive to day length, these strawberries produce buds, fruits, and runners non-stop so long as temperatures remain between 35-85F (1-30C).
