Harley Engine Light Comes On

How To Check Engine Light Code In Memory On A Harley Davidson motorcycle Quick and easy way to look up Check engine light codes. #Harleydavidsonfix

Harley Davidson Check Engine Light Code and Clearing

The Check Engine light can come on for many reasons. If the oil light isn't on then it isn't a oil pressure problem. If the light is off, and hasn't come back on then it was probably just a minor malfunction and isn't a problem. If it comes back on turn off the ignition, hold the trip reset switch, and turn the key back on.

Harley engine light? | Yahoo Answers

Engine or Oil light ? Does it flash on and off like a bounce or does it come on and stay on a while? If it is an oil light and it flashes or bounces, the connection to the oil pressure sender is probably loose, check the connection near the oil pump. If it is an(Engine light ?) you're on your own, my bikes have all been older than yours.

Harley-Davidson: Warning Lights. Unfortunately, you can drive your brand new Harley off the lot and not get five miles down the road before a warning light comes on.

Harley-Davidson: Warning Lights | Hdforums

Rode about 70 miles yesterday. Everything was fine as usual. Stopped for gas. She fired right up. As soon as we hit the road the battery and engine light came on. Pulled into the next gas station and shut her down. Waited a few minutes and she started right back up but lights still on. Headed home.

Battery light came on | Harley Davidson Forums

When I push the run button, the check engine light comes on and the efi gets the gas feed like normal then goes out. A second or two later the check engine light comes on in yellow for about 3-4 sceonds,then goes back off. And seems to stay off until the next time I start her up. Is this normal after the 10,000 mile range?

Check Engine Light | Harley Davidson Forums

I have a 2001 Road King, the check engine light came on a week ago. the best Harley shop around w/ computer scope/etc can not find the problem. The light does not come on when you first start the bake, but the light does comes on as soon as you shift into first and take off and stays on as long as I am moving.

A 2001 Road King, the check engine light came..Harley ...

You don't need to disconnect the battery. Just clear the codes. You should have pulled the main fuse before you disconnected the speedo and tach. That is the reason the check engine light is on because it threw some codes for that. Once you clear them the check engine light should stay off unless you have something wrong.

Check engine light after new bars | Road Glide

If it has a cam chain engine, there is a slight chance that it comes with the issues we discussed earlier. Don't hope that you will get straight answers from Harley dealers regarding this issue. If you really want to own and drive a Harley Davidson regardless of its twin-cam engine problems, then you got to help your motorcycle yourself.
