Heath Earth Science Answer Key

The biological and geological future of Earth can be extrapolated based upon the estimated effects of several long-term influences. These include the chemistry at Earth's surface, the rate of cooling of the planet's interior, the gravitational interactions with other objects in the Solar System, and a steady increase in the Sun's luminosity. An uncertain factor is the continuous influence of ...

Heath & Heath go on to stress the importance of 'curiosity' (pp. 84 - 87). This is the technique that soap operas, cinema trailers and some gifted presenters use to hook the readers/listeners' interest. (Moral: Whether it is the contents of a text, or the lesson, it pays not to tell students everything up front.
