Honda Motorcycle Manuals 1950 to 1980

The Honda XL175 was a 175 cc, 4-stroke, OHC, dual-purpose motorcycle manufactured by Honda from 1973 through 1978. The motorcycle, though dressed in enduro motorcycle style of raised front fender, upswept exhaust system, it was best used for street or trail riding due to its weight compared to 2-stroke contemporaries.

Amazon.com: honda xl175

For some unknown reason the XL-175 which is an XL unto it's own and shares little with the other XL's except fenders and lights, has a ignition system just as the street Honda's of the same era had and it does require a battery to start, this was noted as one of it's biggest downfalls by DIRT BIKE magazine back in the day when the tested it. It ...

If you don't know the procedure, you should be able to find a shop manual for the 175 online. The same proceedure applies to all switches though, so you should find a tutorial out there. Assuming you don't have a multimeter, pull the leads and connect a wire (of the proper gauge, there is no need to reinvent the lightbulb) between where the switch would go using a wiring diagram to guide you.
