Another good idea. Perhaps two ideas, actually. One being the line of work that begins with the Problem of Social Cost and the distribution of property rights. The other that begins with the Theory of the Firm and leads through Williamson to the contemporary theories of the line between firms and markets. Thanks.

The 50 Most Important Economic Theories - Donald Marron

Human capital theories have developed rapidly since Mincer (1958, 1962), Schultz (1960, 1961), Becker (1962) and Ben - Po rath (19 67), laid their foundations.

MS in Clinical Mental Health Counseling

Neoclassical economics is an approach to economics in which the production, consumption and valuation (pricing) of goods and services are driven by the supply and demand model. According to this line of thought, the value of a good or service is determined through a hypothetical maximization of utility by income-constrained individuals and of profits by firms facing production costs and ...

Neoclassical economics - Wikipedia

Economics (/ ˌ iː k ə ˈ n ɒ m ɪ k s, ˌ ε k ə -/) is the social science that studies how people interact with value; in particular, the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and ...
