This is Guide Number One for the HRAF Theoretical Information Control System. In the Introduction to the Guide, Levinson states that it is a new kind of information retrieval tool, an analytical propositional inventory of theories of human behavior that have been developed or tested by means of worldwide cross-cultural studies (1977:2).

Cross-Cultural Analysis - Anthropology

Many norms differ dramatically from one culture to the next. Some of the best evidence for cultural variation in norms comes from the study of sexual behavior (Edgerton, 1976). Among the Pokot of East Africa, for example, women are expected to enjoy sex, while among the Gusii a few hundred miles away, women who enjoy sex are considered deviant.
