I recently purchased a used John Deere Van Brunt Model B Grain Drill with a the Grass Seed attachment. The Grass Seed attachment has a setting range of 0 to 10. I want to plant 25 lbs per acre but have no idea as to which setting between 0 - 10 to set the grass seeder for.

John Deere Van Brunt Model B Grain Drill -settings

Re: John Deere Model B grain drill in reply to RBTXS, 11-06-2020 07:14:25 I've never replaced a seed cup but you're correct to replace a cup one must remove pins in square drive shaft then remove shaft so seed cup can be R&R'd.

John Deere - Van Brunt Special Tube Attachment is for the purpose of keeping the fertilizer from coming in contact with the seed. The fertilizer is deposited in the rows and a layer of soil is always between the fertilizer and seed. An adjusting clamp enables you to raise or lower the boot to change the depth for depositing the fertilizer.
