M3 Infantry Half Track 1940

The M3 half-track was an American armored personnel carrier half-track widely used by the Allies during World War II and in the Cold War. Derived from the M2 half-track car, the M3 was extensively produced, with about 15,000 standard M3s and more than 38,000 variant units manufactured. The M3 was extensively modified with several dozen variant designs produced for different purposes. During World War II, the M3 and its variants were supplied to the U.S. Army and Marines, as well ...

M3 half-track - Wikipedia

For the US Army of World War 2, the most important technical aspect of infantry mechanisation was the development of the M3 half-track personnel carrier. Steven Zaloga guides the reader through the early 1930s development of the half-track, its first deployment in action in the Philippines in 1941 and its varied and vital role in international deployments since World War 2.
