This is why many math curricula use spiraling: they come back to a concept the next year, the next year, and the next. This can be very good if not done excessively (for 5-6 years is probably excessive). However, spiraling has pitfalls also: if your child doesn't get a concept, don't blindly "trust" the spiraling and think, "Well, she gets it the next year when the book comes back around to it."
