I have observed and appreciated Olivier Blanchard's intellectual journey over the last decade. It began in August 2008, with what must be regarded as one of the worst-timed papers in the history ...

Olivier Blanchard, Equilibrium, Complexity, And The Future ...

The crisis and the weak recovery that has followed raise fundamental questions concerning macroeconomics and economic policy. These top economists discuss future directions for monetary policy, fiscal policy, financial regulation, capital-account management, growth strategies, the international monetary system, and the economic models that should underpin thinking about critical policy choices.
