However, there was a high level of reluctance by those persons to relocate," he said lamenting that, "most of them preferred to ride the flooding out." Previously, he said the water would have subsided within a week or two and residents would have returned to their normal lives.

'Life can't go back to normal' - Guyana Chronicle

An electronic cigarette is a handheld battery-powered vaporizer that simulates smoking by providing some of the behavioral aspects of smoking, including the hand-to-mouth action of smoking, but without combusting tobacco. Using an e-cigarette is known as "vaping" and the user is referred to as a "vaper." Instead of cigarette smoke, the user inhales an aerosol, commonly called vapor.

Cigarette - Wikipedia

Hopes and worries for the evolution of humans and digital life in the wake of the arrival of the COVID-19 pandemic Nearly half of experts worry that changes in the ongoing evolution of digital life tied to the COVID-19 outbreak and societies' responses to it may make digital life in 2025 mostly worse for most people.

Autism therapies are interventions that attempt to lessen the deficits and problem behaviours associated with autism spectrum disorder (ASD) in order to increase the quality of life and functional independence of individuals with autism. Treatment is typically catered to the person's needs. Treatments fall into two major categories: educational interventions and medical management.
