### (PDF) Place in Research: Theory, Methodology, and Methods

In reading Place and Methodology by Tuck and McKensie, there are several aspects to addressing place within our research. Tuck and McKensie define Critical Place Inquiry as, “...in examining critical place inquiry we are referring to research that takes up critical questions and develops corresponding methodological approaches that are informed by the embeddedness of social life in and with places, and that seeks to be a form of action in responding to critical place issues such as those ...

### Critical Place Inquiry | Decolonizing Research Methods

Deepening Our Knowledge(Descriptive Research): •Remember that room you’re blind in? Descriptive research is the act of exploring the thing in the dark, creating a fuller picture of what you are looking at. It is not quite as tentative as exploratory, but you still are not 100% sure what you’ve found, although you’re starting to get an idea.

### The Nature of Inquiry and Research

Inquiry is a synonym of research. As nouns the difference between inquiry and research is that inquiry is the act of inquiring; a seeking of information by asking questions; interrogation; a question or questioning while research is (uncountable) diligent inquiry or examination to seek or revise facts, principles, theories, applications, etc; laborious or continued search after truth.
