However, the way our politics now work is in fact increasingly in line with how politics play out in a negative-sum economy, and without understanding this, one cannot really get a good grasp of why today's political, social, and \*ideological\* conflicts behave the way they do. To wit: if you live in a zero-sum world, like the romans did, you ...

The hierarchy of caste and its role in politics and access to power and resources has created a society of patron-client relationships along caste lines. This eventually led to the practice of vote banking , where voters back only candidates that are in their caste, [9] or officials from which they expect to receive some kind of benefits.
