Color is an important part of the entire projection screen. If the colour range is too small, the projector cannot display the film's true colors. Xiaomi Laser Projector uses innovative five-stage color wheel technology for red light projection rates of 16-18% \*. The NTSC color range of 85% provides rich and accurate color reproduction.

Check your Epson projector's owner's manual to determine if a separate wireless module must be purchased to enable wireless connection. Epson projectors can be networked either through the Ethernet port on the projector (check model specifications for availability) or through a wireless connection.
