For the ease of rigging and identification prior to stepping a mast, always lash the halyards to the mast before unstepping, ensuring they do not foul the operation of unstepping and stepping. Check that the sailing dinghy is stable when rigging a deck-stepped mast, preferably cradled in its trolley, trailer or stand.

### Sailboat Rigging Guide and Instructions to Mast Stepping ...

With the boat fully powered up going to windward in a moderate breeze the lee shrouds should retain a small amount of tension. If the rig was well tuned before the rig was lowered, then counting the number of turns of the bottle screws will enable it to be returned to the same settings.

Running Rigging. Last Updated on Wed, 19 Aug 2020 | Boat Sailing Guide. Jib Tack, Jib Halyards, and Jib Sheets. The jib tack requires to be of great strength, and is made indifferently, accordingly to the judgment of the person who has the fitting out of the yacht, of rope, chain, or flexible wire rope. Rope does very well in vessels under 40 tons, but wire is to be preferred, and it is found to stand better than chain.
