Land Rover Engine Rebuild Kits - Cross-Axled Customs

The Rover M series (or M16) is a line of 4-cylinder, DOHC internal-combustion engine introduced by the Austin Rover Group in 1986 for the then-new Rover 800 series.. The M series was produced only in one cubic capacity – 1994 cc (2.0 L), and was a 16 valve development of the older British Leyland O-series unit first seen in 1978. For the Rover 800, there were two different versions, with ...

Rover M-series engine - Wikipedia

About Range Rover Rebuild Engines Range Rover Rebuild Engines was found due to the reason that there are not many qualified Range Rover professionals out there currently in the UK. The original new engines purchased from the dealers are too costly and when there are cost-effective solutions out there, why go to the dealer and pay a ton of money when you can get everything done for cheap?
