Assessment and Rubrics - Kathy Schrock's Guide to Everything

A rubric is a performance-based assessment tool. Teachers use rubrics to gather data about their students' progress on a particular assignment or skill. Simple rubrics allow students to understand what is required in an assignment, how it will be graded, and how well they are progressing toward proficiency.. Rubrics can be both formative (ongoing) and summative (final) assessment tools for ...

Simple Rubric Examples for Teachers

Examples and models may help, but it is more important to provide detailed criteria that will be used to assess the performance-based assessment. All criteria should be addressed in a scoring rubric. Observations are an important component and can be used to provide students with feedback to improve performance.

6 Types of Performance-Based Activities

Preschool teachers use formative assessments to check the cognitive, social-emotional, and physical development of their students throughout the school year. Based on formative assessment results, they can fill in learning gaps as students prepare for kindergarten. Here are some examples of preschool formative assessments.

Common Formative Assessments Examples

Rubrics – defined in the regulations as “scoring tool(s) that describe characteristics of practice or artifacts at different levels of performance” (603 CMR 35.02) – are a critical component of the Massachusetts educator evaluation framework and are required for every educator. Rubrics

Our Edublogs class website is a virtual classroom of sorts, with tons of resources for my students. I use it for posting videos of daily lectures, reviews, and help sessions. It's also a place where my students can access the weekly syllabus, assignments, rubrics, project information, interactive websites, tutorials, etc.

13 Examples Of Great Class Blogs | K-12

The question-answer relationship (QAR) strategy helps students understand the different types of questions. By learning that the answers to some questions are "Right There" in the text, that some answers require a reader to "Think and Search," and that some answers can only be answered "On My Own," students recognize that they must first consider the question before developing an answer.
