• Spend less. Save more. • Invest your money long enough to allow interest to compound and for wealth to potentially build up. • The rate of return is very important. • Your money must earn a rate of return higher than inflation. • Look for investment vehicles that have tax advantages. • The result is your wealth: your future retirement.

### Saving your future financial foundation by darin weldauer ...

One of my favorite sayings is: Price Matters! The best plan to lower risk is to buy investments at a price that is lower than the real or intrinsic value. A low price means greater upside appreciation if conditions are favorable. At the same time, a low price provides a margin of safety if circumstances are not ideal.
