Civilisation In China Volume 5

Science and Civilisation in China (1954–present) is an ongoing series of books about the history of science and technology in China published by Cambridge University Press. It was initiated and edited by British historian Joseph Needham (1900–1995). Needham was a well-respected scientist before undertaking this encyclopedia and was even responsible for

The river runs across central China's loess plains, picking up an immense load of silt, which colors the water and gives the river its name. The Yellow River in Ancient China The recorded history of Chinese civilization begins on the banks of the Yellow River with the Xia Dynasty, which lasted from 2100 to 1600 BCE.
