GED Study Guide

1. Pick a Good Place to Study. There's a delicate balance when it comes to the best study spot: You need a place that's comfortable without being so relaxing that you end up falling asleep. For some people, that means working at a desk. Others do better on the couch or at the kitchen table. Your bed, on the other hand, may be too comfy.

25 Scientifically Proven Tips for Effective Studying [2020 ...

Science is much like math and history is like English, but again your study methods for each will have to be a little different. Remember that and don't try to study for each subject the same way, but think about what makes that subject unique and what kinds of information are most important.
