Stair Lifts Types. There are two basic types of stair lifts: straight and curved. A straight stair lift is installed for a single, straight flight of stairs that has no turns or landings. A curved stair lift is installed for stairs that feature a turn or curve, an intermediate landing, any change in direction or angle of incline, or when out-of-the-way parking at the top or bottom is desired.

### **Stair Lifts | U.S.A. & Canada | Silver Cross**

A stair lift is one of the easiest ways to eliminate the barrier of stairs. A simple straight stair lift installs in a few hours and your local Silver Cross store can usually have one installed within a day of your call! What are you waiting for? If your stairs feature a landing or a curve, you'll need a curved stair lift.

DECORATIVE. A stair lift comes as it is. Usually bulky, blocky and off-white. A residential elevator on the other hand, can be customized. This is especially useful if the lift needs to blend with other décor and look like a natural addition to the room or fit in with a specific theme or design scheme.
