If the engine in emitting black smoke, this could mean that the air filter is dirty, the fuel could have gone bad, and/or the carburetor is flooded. Start by checking your air filter, if it looks okay, move onto replacing the gas. If the problem continues, refer to the following for cleaning/replacing your Carburetor.

### Troubleshooting small engine problems | Briggs & Stratton

The art of adjusting a small engine carburetor comes from training and experience. A small engine technician adjusts more by feel and sound than by manufacturer's specs and this is something that comes only from experience. That being said, I will provide you with some very basic, "rule of thumb" techniques.
