Adding Weld Beads to Sheet Metal Corners To add weld beads to a sheet metal corner: Click Welded Corner (Sheet Metal toolbar) or Insert > Sheet Metal > Welded Corner. Select one of the corner faces.

2020 SOLIDWORKS Help - Adding Weld Beads to Sheet Metal ...

Weldments functionality enables you to design a weldment structure as a single multibody part. You use 2D and 3D sketches to define the basic framework. Then you create structural members containing groups of sketch segments. You can also add items such as gussets and end caps using tools on the Weldments toolbar.

2017 SOLIDWORKS Help - Adding Weld Beads to Sheet Metal ...

When you have a weldment with a bunch of sheet metal parts is there an easy way to get the flat pattern for each of those parts? Right now we make a configuration that suppresses and unsuppresses each flat pattern for each sheet metal part. That's a bit of a pain if you have a dozen sheet metal parts. Just wanted to know if there was an easier way.

Multiple Flat Patterns in Weldment? | SOLIDWORKS Forums
