A Protocol for Evidence-Based Staff Training. Evidence-based staff training consists of performance- and competency-based strategies (Reid et al., 2003). The phrase performance-based refers to what the trainer and trainees do (i.e., actively perform the specific responses being trained) during the training.

Our staff "My philosophy is teaching real people, real skills which help them get real jobs. I love working at Otago Polytechnic because I get to work in the outdoors, pass on my 37 years of industry experience and work with colleagues who show the same passion and enthusiasm as me."

Our staff - Otago Polytechnic

Behavioral skills training (BST) is a well-researched, performance- and competency-based means of training job skills to human service staff. Pyramidal training, through which a senior trainer (e.g., behavior analyst) trains staff to train other staff, represents a means of reducing the amount of time for the senior trainer to use BST to train multiple staff.
