Summary Of Food Inc Documentary

Food, Inc., an American documentary film, examines the industrial production of meat, grains, and vegetables. The film concludes by claiming the entirety of our food industry is inhumane, and economically and environmentally unsustainable. The film continues to examine today's industry by exploring the economic and legal powers large food companies have. Thus, recently, the spotlight...

Food, Inc.: Directed by Robert Kenner. With Eric Schlosser, Richard Lobb, Vince Edwards, Carole Morison. An unflattering look inside America's corporate controlled food industry.

Food, Inc. (2008) - IMDb

Super Size Me is a 2004 American documentary film directed by and starring Morgan Spurlock, an American independent filmmaker. Spurlock's film follows a 30-day period from February 1 to March 2, 2003, during which he ate only McDonald's food. The film documents the drastic effect on Spurlock's physical and psychological health and well-being. It also explores the fast food industry's corporate ...

Super Size Me - Wikipedia

Documentary filmmaker Morgan Spurlock makes himself a test subject of this documentary about the commercial food industry. Rigorously eating a diet of McDonald's fast food, three times a day for a month straight, Spurlock is out to prove the physical and mental effects of consuming fast food.

Super Size Me (2004) - Plot Summary - IMDb

Fast Food Nation: The Dark Side of the All-American Meal is a 2001 book by Eric Schlosser. First serialized by Rolling Stone in 1999, the book has drawn comparisons to Upton Sinclair's 1906 muckraking novel The Jungle. The book was adapted into a 2006 film of the same name, directed by Richard Linklater

An Inconvenient Truth: Summary, Facts & Quotes - Video ...

Food. There's plenty of it around, and we all love to eat it. So why should anyone need to defend it? Because most of what we're consuming today is not food, and how we're consuming it — in the car, in front of the TV, and increasingly alone — is not really eating. Instead of food, we're consuming "edible foodlike substances" — no longer the products of nature but of food science. The ...
