2.3. Sample Size and Data Collection. An a priori sample size was calculated by G*Power, Version 3.1 using the following parameters: alpha at 0.05, power at 0.80, an estimated medium effect size of 0.10 , and three predictors, which yielded a sample size of 114. In case additional covariates were found to be significant, the sample size was ...

Extant research shows that social pressures influence acts of political participation, such as turning out to vote. However, we know less about how conformity pressures affect one's deeply held political values and opinions. Using a discussion-based experiment, we untangle the unique and combined effects of information and social pressure on a political opinion that is highly salient ...

Chapter 802b - Decedents' Estates

The existence, usage and benefits of digital technologies in nursing care are relevant topics in the light of the current discussion on technologies as possible solutions to problems such as the shortage of skilled workers and the increasing demand for long-term care. A lack of good empirical overviews of existing technologies in the present literature prompted us to conduct this review.

Digital technology and nursing care: a scoping review on ...

Lighting or illumination is the deliberate use of light to achieve practical or aesthetic effects. Lighting includes the use of both artificial light sources like lamps and light fixtures, as well as natural illumination by capturing daylight. Daylighting (using windows, skylights, or light shelves) is sometimes used as the main source of light during daytime in buildings.
